

SUDOKU 4 KIDS!

Remember the aim of the game is to fill each square with a number from 1 - 4. Each number can only appear once in the same row, column or 2 x 2 box.

TIPS:

- » Sudoku is a mind game with no maths involved in finding the solution!
- » Use a pencil, and have a rubber handy.
- » Divide the puzzle into sections as opposed to solving it all at once.
- » Fill in the easy numbers before you try and determine the harder ones!
- » Take your time, never try and rush through a game-relax and enjoy.

	2	1	4
	4	2	
	1	3	
3	2	4	

	1	4	2
4	3		1
		3	4
3	4	1	

Sudoku means single number in Japanese!
